**For Immediate Release**

## **PressurePro™ Technology Featured at CONEXPO-CON/AGG**

**See PressurePro's leading TPM Solutions in action at North America's largest construction trade show.**

**Harrisonville, MO: February 28, 2020:** Advantage PressurePro, the original provider of direct Tire Performance Management Solutions (TPMS), is happy to have their market leading TPMS options featured with several partners during the upcoming CONEXPO-CON/AGG 2020 show. Held every three years at the Las Vegas Convention Center, CONEXPO-CON/AGG remains North America's largest construction trade show, featuring the latest equipment, technology and more. The 2020 event begins Tuesday, March 10<sup>th</sup>, and will feature over 2,000 exhibitors and 150 educational sessions.

"We're proud that our TPMS technology will be featured alongside so many of our respected partners during this event" stated Jason Zaroor, President and CEO of PressurePro. "From Tigercat featuring our PULSE technology, to Sandvik displaying joint, integrated solutions, our customers – and potential customers – will have an opportunity to see PressurePro at work in a wide array of ways, across many applications."
